### Sharing Documents - as of April 2020

Sharing over Merlin Server's application windows	1
Sharing over Merlin Project's macOS application	2
Sharing over Merlin Project's iOS app windows	8

## This quick guide explains how to share documents with Merlin Server.

Merlin Server allows you to share documents created using Merlin Project 4.0 or later. There are two ways to share a project: One by using Merlin Project, another by using Merlin Server's functionality.

#### Sharing over Merlin Server's application windows

If you have a Merlin Project file that you created using Merlin Project and need to share it, start the 'Sync' service in Merlin Server. Locate the file in the Finder and drag it onto the 'Sync > Documents' window of Merlin Server.

	Merlin Server	Searching "Desktop"			
Services				Q general projec	t m🛛
• 💭 Sync	Documents	Search: This Mac "Desktop"			e 🕂
Documents		Name	^ Size	Kind	Date
Publishing	Name Access Size	General Project Management Plan	2.1 MB	Merlinument	Toda
Web	General Project Management Plan				
Server	There are currently no documents on this Merlin Server. To upload documents, drag them into this area.	-			
C Licenses					
Tenants					
	+ - Remote Management Passwo				
Accounts     Web Server      Certificates     Dicenses	There are currently no documents on this Merlin Server. To upload documents, drag them into this area.				

It will be uploaded to Merlin Server, can be subscribed to by any Mac or an iOS device, or viewed in a web browser (if you enable the 'Web' service).

📢 Publishing		Access Size	
(C) Accounts	🐮 General Project Management Plan	2.1 MB	
🚱 Web			
Server			
Certificates			
C Licenses			
Tenants			
	+ - Rem	note Management Password	I

The file in the Finder window can be deleted, as Merlin Server doesn't require it anymore.

#### Sharing over Merlin Project's macOS application

If the admin of Merlin Server wants to allow users of Merlin Project to share projects on Merlin Server, the admin can enter a **Remote Management Password** and forward this information to those users.

To set the **Remote Management Password**, click the relevant button in Merlin Server's 'Document' window.

O O Merlin Server

		+ -		Remote Manage	ment Password	

Forward the **Remote Management Password** to the Merlin Project user whom you allow to share files on Merlin Server.

To share a project over the Merlin Project macOS application:

- Start Merlin Project on a mac and open an existing file first.
- Share the project using the option 'Sync > Share Document on Merlin Server',

If the Merlin Server installation isn't located in the LAN and not automatically discovered by Bonjour, a Merlin Server account needs to be added first.

Once a Merlin Server account exists, to share a project over your Merlin Project iOS app use the options the iOS app offers in the locations area.

Locate the file in its current location, tap and keep on pressing until the contextual menu appears, tap on 'Move' and select a Merlin Server location.

	Edit	🕻 On My iPad		Merlin Pr	oject		+	<u></u>	Select
